Based in Burgundy, available for destinations across France and worldwide.

With a warm, natural style enhanced by a touch of French elegance, I capture each emotion and delicate detail creating timeless images.

EVA

PASSIONATE | AMBITIOUS

I'm sensitive to light, I'm in awe of every sunset, every ray of sun dancing through the leaves, every stormy sky that lets a single thread of light break through.

I'm passionate about sensations; I can't stand boredom. I want to experience Life, with a capital "L"! To travel across France and to the far corners of the world, to stay active, to create, to explore everything.

GETTING READY MOMENTS

Before stepping into the joyful whirlwind of your wedding day, take the time to savour the quiet intimacy of your preparations.

I capture these moments with a gentle, unobtrusive eye preserving their spontaneity and the genuine emotions that make them so beautifully real.

MY ADVICE

While I focus on capturing authentic moments, I also ensure the final images are as aesthetically pleasing as possible. For your preparations, I suggest selecting a bright, organized space even if it means tucking your belongings under the bed before I arrive!

COUPLE PHOTOSHOOT

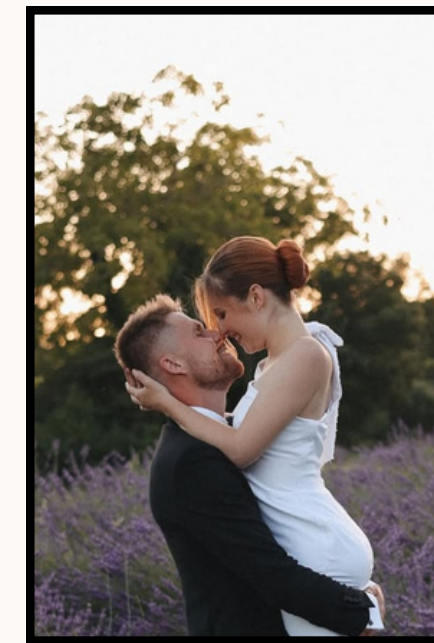

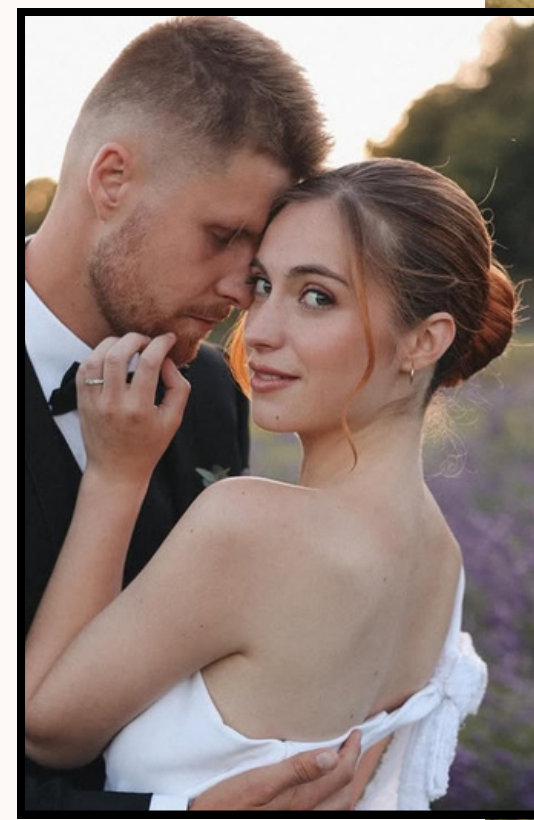

Looking for photos that truly reflect who you are?

We'll walk, chat, and laugh together, creating images that feel effortlessly genuine.

My goal: to capture your connection in its most natural, authentic form.

Dreaming of photos worthy of the finest magazines?

Let me guide you, together, we'll create images that are timeless, elegant, and modern.

CEREMONY

The story of your wedding unfolds through these meaningful moments, whether at the town hall, in a church, or during a secular ceremony.

I'll be there to capture each one with discretion and grace, allowing you to relive this chapter of your day forever.

MY ADVICE

For your entrance, kindly ask your guests to put their phones aside: you'll be greeted by genuine, heartfelt expressions rather than screens.

For your secular ceremony, position yourselves in the shade or with the sun at your back to ensure flattering and soft lighting
